572-388 Philippines

Howard - 12 Dec.

Would you take care of this for me, please. Note it should go out at once - I just saw it today.

We would be pleased to have claims identified to the issued US case. I don't think the Spec was amended. I'm sure you'll check.

Also, you'd better give Laymer the arguments we broadened in "Amendment" - the Exam contemplates it.

And - in the -388 Foreign file you'll find that Laymer hacked & filed a few jobbish claims in several countries, & had to amend. Unspecific this is the amendment no 2, 3 & 4 refused no. But please check.
